

Trijicon® Bright & Tough™ Night Sights

Featuring glowing tritium-filled lamps for a distinctive shooting picture in any light, Trijicon® Bright & Tough™ Night Sights are the reliable choice for all light conditions, providing superior illumination and impressive accuracy.

ACCURATE

Trijicon Bright & Tough Night Sights are three-dot iron sights that increase night-fire shooting accuracy by as much as five times over conventional sights. Equally impressive, they do so with the same speed as instinctive shooting – and without the need for batteries.

Three tritium-filled phosphor lamps provide the illumination for Bright & Tough Night Sights. Up front, an extra-large dot area provides a bright and distinctive sighting picture. Select models also feature a white ring around the glowing dots for unequaled daylight visibility. Choose from standard green or optional orange or yellow rear dots.

Housed in a metal body, manufactured to fit specific handgun make and models, and cushioned within silicon rubber, Bright & Tough Night Sights feature a unique shock-resistant design that is patented by Trijicon.

EFFECTIVE

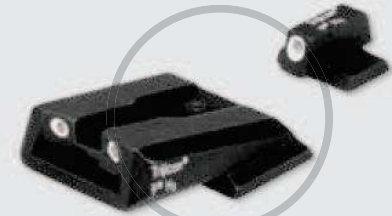

Highly effective at close quarters, Bright & Tough Night Sights are standard issue with hundreds of municipal and county police and sheriff's departments, numerous state police departments and several federal law enforcement agencies. In addition, they're the first choice of major handgun manufacturers and are widely used in military applications and for home defense.

SOLID

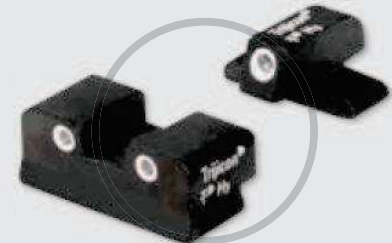

On Bright & Tough Night Sights, each lamp is capped with a sapphire jewel to help evenly distribute the light while protecting the lamp from solvents and puncture. Contained within aluminum cylinders for additional protection, the lamps are mounted on silicon rubber cushions to withstand shock and heavy recoil.

Trijicon® Bright & Tough™ Night Sights

The First Choice of Major Handgun Manufacturers

Featuring glowing tritium-filled lamps for a distinctive shooting picture in any light, Trijicon® Bright & Tough™ Night Sights bring the advantages of self-illuminating technology to sidearm users.

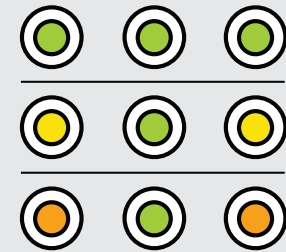

These three-dot iron sights increase night-fire shooting accuracy by as much as five times over conventional sights – with the same speed as instinctive shooting – and without the need for batteries.

In addition, they feature a white ring around the glowing dots for unsurpassed daylight visibility.

Highly effective in close quarters, Trijicon Night Sights are widely used in military applications, home defense, as well as standard issue with hundreds of police departments and federal agencies.

Three Trijicon® Bright & Tough™ Night Sight Color Options:

Standard green rear dots glow brightest, while optional orange* or yellow rear dots provide contrast.

* Orange Tritium lamps are guaranteed for 5 years. Non-warranty lamps can be replaced by Trijicon for a nominal fee.

Trijicon® Bright & Tough™ Night Sights Warranty:

Installation by a professional gunsmith is required in order to obtain the twelve-year warranty against lamp failure.

Body
Night sights manufactured for specific handgun makes and models.

Glass Lamps
Filled with pressurized tritium gas, lamps glow bright at night.

12-Year Power Source*

Silicone Rubber Cushion
Gives additional shock protection to tritium-filled glass lamps within the aluminum housing.

Extra-Large Front Dot
Provides a bright, distinctive sighting picture.

White Rings
All Trijicon Night Sights feature a white ring around the glowing dots for unequaled daylight visibility.

Trijicon Tritium-Phosphor Lamp
Tritium-filled glass lamp provides superior illumination that is guaranteed to last at least 12 years.*

Sapphire Window
Each Trijicon tritium lamp is capped with a sapphire jewel which helps to evenly distribute the light from the tritium lamp as well as protect it from solvents and puncture.

Protective Aluminum Cylinders
Contains and protects the tritium-gas-filled lamps from heavy recoil and harsh cleaning solvents.

Lifetime Warranty

Assembled in the U.S.A.

Custom Gunsmithing Service:

Some pistol and revolver models require factory-precision gunsmithing installation service. You may ship the slide of a semi-auto pistol or a revolver via UPS directly to:

Tooltech Gunsight • 20 Church Street, Oxford, MI 48371 • Ph: (248) 628-1811 • www.tooltechgunsight.com

The system will be installed and returned to you via UPS. On automatic pistols, please send only the slide. Tooltech Gunsight has been installing Trijicon Bright & Tough Night Sights systems since 1985 and has received the required NRC licensing. We recommend their service. Contact Tooltech Gunsight directly to obtain a current price list.
